

A Guide to:

WEBSTER AND THE POD SQUAD Vol. 1

Congratulations on joining the POD Squad (People of Dignity)! Before getting started, let us explain how your materials may be used. Enclosed in the DVD package you will find 3 DVDs, each containing approximately 30 episodes and covering 5-6 character education topics. Also included is a booklet that contains brief summaries and discussion questions for each episode. This booklet is a useful tool for navigating Webster's 90 episodes.

Overall, there are 17 different character education topics addressed in 18 different sections (Bullying is discussed in two parts). Within each section, there are 4-5 episodes on a specific topic. There is a "play all" feature within each section if you wish to view all episodes in succession. However, you may also pick and choose specific episodes using the summary/discussion booklet to customize your viewing. Episodes do not need to be viewed in a specific order.

Each of Webster's episodes are only 2-4 minutes in length, which allows for more discussion and activities in the classroom and allows for episodes to supplement other curriculum. This program is very adaptable to any existing character education program or may be used as a central theme for a rising program. We at Killen Creations hope you find Webster and the POD Squad useful and enlightening for your children or students. We desire all members to become People Of Dignity.

As you begin to utilize Webster and the POD Squad, please note that we are also interested in developing buttons, bookmarks, and posters that can be customized for your school and used as part of an incentive program. Please contact us if you may be interested in utilizing some of these items.
